The Government is currently examining the technical feasibility of laying the missing link across India-Myanmar border, a stretch of about 300 km through hilly terrain betwen Jiribam railway station in Manipur and Kalay in Myanmar. The feasibility study will be conducted thereafter. As regard laying of missing links between Myanmar-Thailand-Cambodia-Vietnam and restoration/upgradation of existing rail links, there is an ASEAN rail connectivity programme from Singapore to Kunming that is expected to take care of the same.
